Hiring Manager

RE: APPLICATION FOR SALES, MARKETING & BUSINESS DEVELOPMENT POSITION

Dear Hiring Manager,

I am writing to express my interest in Sales, Marketing, Business Development or Customer Experience opportunities within your organization. I am a Zimbabwean Sales and Marketing professional with practical experience in telecommunications, financial services and customer service, supported by a Bachelor of Commerce Honours Degree in Marketing from Zimbabwe Ezekiel Guti University.

My professional experience includes working with NetOne Cellular, TelOne and First Mutual Life Assurance, where I developed practical skills in customer acquisition, product promotion, client relationship management, customer service, sales support and marketing activities.

At NetOne Cellular, I worked as a Data Capturer Clerk within the OneMoney environment, where I supported customer data management and participated in marketing and customer-awareness activities. I engaged customers during marketing blitzes in areas including Mbare, Glenview and Epworth, helping create awareness of OneMoney products and digital financial services.

During my time at TelOne, I worked as a Client Service Representative at the Mutare Branch. This experience strengthened my customer service, communication, problem-solving and relationship-management abilities. I assisted customers with enquiries, supported service delivery and promoted telecommunications products and services.

At First Mutual Life Assurance, I worked as a Sales Representative, gaining direct experience in prospecting, product presentation, customer engagement, follow-up and relationship building. This strengthened my understanding of consultative selling and the importance of matching products and services to customer needs.

I believe my combination of academic marketing knowledge and practical commercial experience would enable me to contribute positively to an international organization. I am particularly interested in roles

where I can contribute to revenue growth, customer acquisition, client retention, business development and customer experience.

I am adaptable, professional and comfortable working with diverse customers and teams. I am also open to international relocation and remote opportunities, depending on the requirements of the position.

I would welcome the opportunity to discuss how my experience and skills could contribute to your organization's objectives. Thank you for considering my application. I look forward to the possibility of speaking with you.

Yours sincerely,

AGRIPAH ZIMUDZO
